

INTERWRITE MOBI™ LEARN TOGETHER

MEET THE NEXT-GENERATION INTERACTIVE CLASSROOM, FEATURING:

- the new Interwrite Mobi wireless tablet
- Interwrite Workspace® 8 software
- Mobi Dock charging and security station

The Mobi's unique ergonomic shape and compact, ultra-lightweight design make it extremely comfortable to hold, carry and write on for hours at a time.

Provide a superior collaborative instructional experience and raise student achievement with multi-media rich content, integrated formative and summative assessment capabilities and one of the most versatile and cost-effective classroom management systems ever developed.

Yes, we CAN do better and accelerate students' academic progress by involving and engaging them in the most collaborative and interactive learning experience yet, starting with...

The Interwrite® Mobi System – the world's first multi-user, wireless tablet. The Mobi works like a portable interactive whiteboard that also gives the instructor instant, real-time feedback on both individual and class comprehension when used with eInstruction's market-leading CPS student response systems. As students answer questions with their CPS "clickers," Mobi pulls their responses from the CPS database and displays the results on the instructor's Mobi. (Only the instructor sees the assessment results.)

The system includes one tablet with a built-in, full-color KWIK (Know-What-I-Know) screen for displaying assessment results, and two additional tablets.

All the important features teachers say they want.

- Manage lesson content remotely and identify which students may need extra help and which subjects may need to be retaught.
- Supports differentiated instruction and spiral curricula.
- Plug and play simplicity and instant wireless connectivity.

The Mobi Dock, an attractive desktop or wall-mounted power supply and locking station that holds three Mobis and keeps them secure, charged and ready for use.

INTERWRITE WORKSPACE® 8

LEARN TOGETHER

Introducing Interwrite Workspace 8 –

**A QUANTUM LEAP INTO THE
NEXT-GENERATION, MULTI-USER,
INTERACTIVE CLASSROOM**

Workspace 8 makes it possible for everyone in the class to participate and collaborate via interactive whiteboard, wireless pads and tablets, and student response systems.

Yes, we CAN improve students' academic progress by involving and engaging them in the most collaborative and interactive learning environment yet, using eInstruction's revolutionary Workspace 8 software.

Used by millions of teachers and students around the world, **Workspace** is easy to learn and easy to use. It provides a superior collaborative instruction experience and is compatible with eInstruction's entire product suite, including its line of mobile wireless tablets, interactive whiteboards, CPS assessment system and industry standard ExamView® content.

Workspace 8 can accept simultaneous input from up to nine users, allowing students and teachers to:

- Access, annotate, highlight, edit, manipulate and interact with digital content from virtually any program or source
- Bring lessons to life with Workspace's extensive multi-media gallery and seamless integration with ExamView Assessment Suite and Learning Series content

For more information visit www.einstruction.com/workspace or call 1-800-344-4723 x238

INTERWRITE WORKSPACE 8

Teach with Any Content

Workspace's open design allows you to control, annotate and interact with any teaching materials in any format as well as online content and third party curriculum. No importing or compatibility issues to worry about.

Seamless integration with ExamView content, for instance, makes creating, delivering and grading tests a snap. Access over 4,000 teaching resources with the stroke of your interactive pen, from educational images to engaging animations; from instructional videos to complete interactive lessons. Workspace has the content and resources teachers need.

Expand your kit of presentation tools

Throw away the chalk and dry erase markers, and pick up your favorite digital pen and paper. Workspace will help you to get your point across while keeping your students engaged.

Bring your lessons to life with extensive multi-media support

Access, annotate, highlight, edit, manipulate and interact with digital content from virtually any program or source. Workspace provides the widest range of multi-media tools of any interactive teaching program. Workspace enables you to play audio, video and flash files (movies and animations), and web content right inside your lesson pages. You can even annotate streaming video.

Capture and share your greatest teaching moments

Workspace provides a number of capabilities to help you organize, retain and share your teaching materials. You no longer need to worry about your work being erased from the whiteboard. Workspace is the only teaching program that captures your work - automatically. You focus on teaching and Workspace does the rest.

INTERWRITE DUALBOARD

LEARN TOGETHER

Introducing the Interwrite DualBoard –

**THE NEXT-GENERATION WHITEBOARD
YOU'VE BEEN WAITING FOR!**

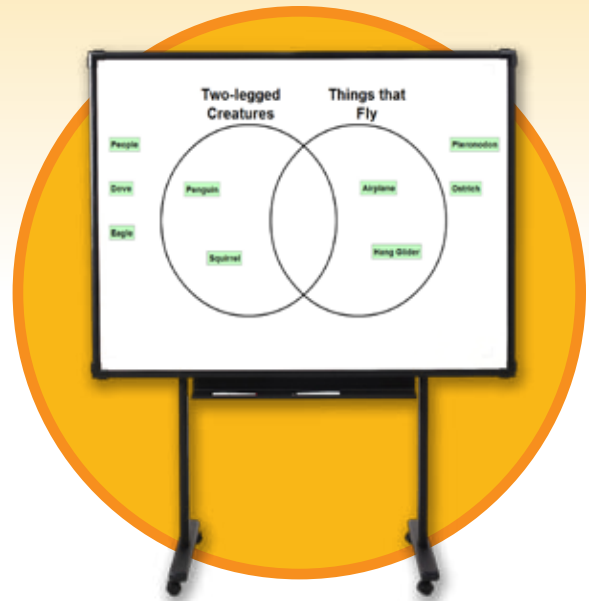

Take student engagement and academic performance to a whole new level.

Where other whiteboards can only be controlled and annotated by one person at a time, the new **Interwrite DualBoard** lets **two** people or teams control the board. Students and teachers can work together, using the interactive input pens that come with it.

Imagine what you can do now!

Let your imagination enhance your instruction and raise student achievement

Offering all the features of the Interwrite® Board, the DualBoard now provides more opportunities for both students and teachers to engage, interact and collaborate with each other.

Caption to come?

Think of the possibilities and permutations.

- Have students solve problems concurrently, collaboratively, or in competition
- Interact with and annotate over your current lessons, PowerPoint slides, web pages or any other computer application
- Create exciting and engaging lessons with Interwrite Workspace® 8 image galleries and extensive ExamView® content resources

For more information visit www.einstruction.com/workspace or call 1-800-344-4723 x238

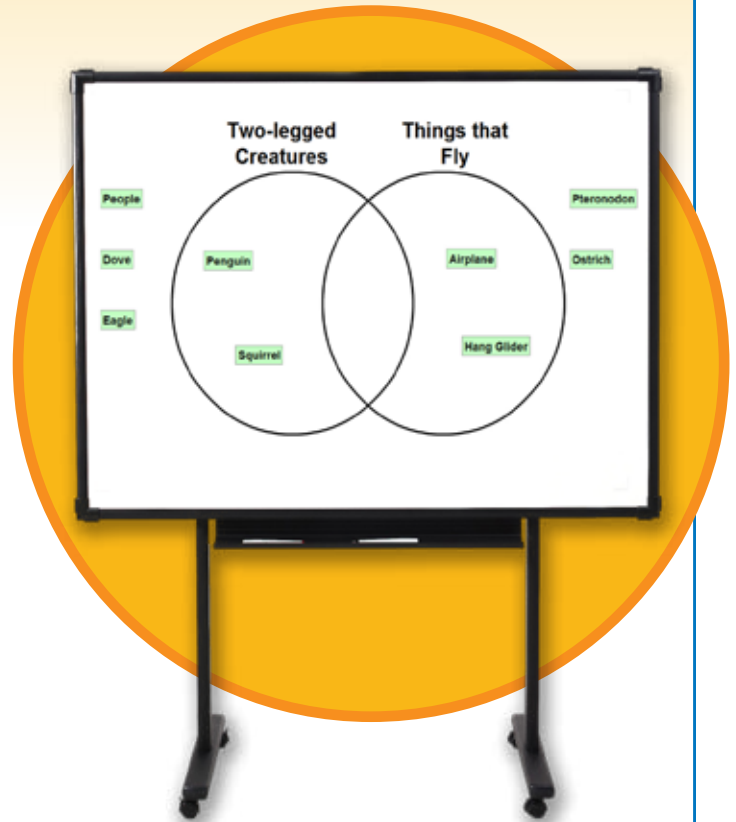

INTERWRITE DUALBOARD

Specifications and Features

KEY FEATURES

- Durable, classroom-tough construction
- Functions as a standard dry erase board, so markers can be used and easily erased
- Easily captures your notes, with or without the use of a projector
- Award-winning, easy-to-use Workspace 8 software is included FREE, giving you access to an extensive digital library of images, simulations and lessons, along with over 50 annotation tools for creating, annotating and recording your lessons and lectures.
- Available in both standard and wide-format sizes
- Interactive pens provide full mouse navigation, drag-and-drop, and point-and-click capabilities
- Offers three mounting options: wall mount, stand mount, or an adjustable height stand mount with a projector arm*

* Mounts sold separately

Makes for a richer, more student-centered learning experience and teaching methodology.

INTERWRITE® Dualboard + INTERWRITE Mobi™ + INTERWRITE™ **WORKSPACE® 8**

 eInstruction™
Simple Solutions. Real Results.

Learn Together

• Research 1

"The evidence is strong and quite consistent...that students who study under various forms of peer interaction:
...have more positive attitudes toward the subject matter,
...have increased motivation to learn more about the subject,
...and are better satisfied with their experience than students who have less opportunity to interact with fellow students and teachers."

 eInstruction™
Simple Solutions. Real Results.

– Barkley, Cross, and Major (2005)

• Workspace 8

INTERWRITE™
WORKSPACE® 8

Teacher and up to 9 students can now collaborate on instructional activities simultaneously creating a truly dynamic learning experience
